

Emma Olsson

Frontend Developer

Emma is a skilled developer proficient in JavaScript, Node.js, and React. She approaches her work passionately, with strong problem-solving abilities and a commitment to maintaining high quality. Her positive attitude and eagerness to stay updated with the latest technologies and trends make her a valuable asset.

With a background in frontend development, Emma is adept at building responsive websites in complex environments with a focus on user interfaces. She has a keen interest in accessibility, design, and code structure, always striving to write code that is easy to test, understand, and maintain. Emma also possesses strong backend knowledge, having developed Node.js APIs in JavaScript and TypeScript with MongoDB as the storage solution.

Emma prefers working collaboratively in a team setting but also has experience working independently. She has previously worked in an agile scrum team within a cross-functional organization and enjoys being involved in the entire development cycle, from concept to launch.

✧ Skills

Languages & Frameworks

JavaScript, TypeScript, Node.js, React,
Next.js, Vue.js, C#, ASP.NET, Pattern-lab,
Html, SCSS, React-Native,
Jest, Tailwind, Zeplin, npm, nvm, gulp, git,
Azure DevOps, IIS, REST, HTTP,
Bootstrap

Tools

PowerShell, GitHub, AWS, VS Code, GCP
Slack, Teams.

Methods

Agile development, Scrum principles, Kanban,
Developed components with accessibility
requirements (WCAG), pair programming, BEM
naming (Block Element Modifier), hybrid work

Databases

SQL, MongoDB, Episerver, Strapi cms

Work Experience

LCube - Fullstack Developer

2024

Developing a website for the company LCube built with React, TypeScript, Tailwind, Next.js, and AWS. The website includes a blog function that can be easily updated using Markdown files (.md, .mdx). CI/CD is set up using GitHub, GitHub Actions, AWS S3, and AWS Route 53

Authority AB - Frontend Developer

2023

Authority helps companies by developing and maintaining digital business operations. They offer their customers digital solutions in e-commerce platforms and digital communication.

At Authority, I worked on several different client projects with a broad technology base. One of the largest projects focused on accessibility where I had the opportunity to develop within the WCAG area. The daily work mainly consisted of frontend development where I learned modern structures, familiarized myself with various codebases, and implemented new designs. The projects included technologies such as Pattern-lab, React, JavaScript, and SCSS. In addition, I actively participated in projects with Node.js and C#.

We worked agilely and according to Scrum with various ceremonies such as daily standup, sprint planning, and retro. The work was both independent and collaborative, and we did some work through pair programming. Data came from the backend using Node.js, Episerver, and C#, where we had good communication between the teams.

Kåkå AB - Sales and Order Responsible

2016 — 2019

Kåkå is one of the largest wholesalers in the Nordic region. I was responsible for a customer group, received order requests, and handled sales and customer service.

Borgs Bageri - Sales and Order Responsible

2014 — 2016

Borgs Bakery is a delivery bakery where I was acting administrative manager and order responsible. Managed reception and sales of orders via telephone and handled procurement issues for various parts of the bakery.

🎓 Education

Nackademin

2024-08 — Nuvarande

.Net programmering 400yh

C#, SQL, Frontend 1 and 2, ASP.NET 1 och 2, Data Communication and Security, DevOps, Technical Specialization

IT-högskolan - UX and User-Centered Design 30yh

2024

Digital statistic tools, Google Analytics. Digital and analog user testing. Test analysis. UX tools such as personas, user stories, and customer journeys. Figma. Wireframing. Interaction design. Information architecture from a UX perspective.

Nackademin – Frontend Developer 400yh

2021 — 2023

HTML, CSS, JavaScript, React, Node.js, MongoDB, Graphic tools, Jest, CMS.

Karolinska Institutet Stockholm - Optometry Program

2017 — 2020

Norra Real

2006 — 2009

Natural Science line with special focus on mathematics and programming

🎓 Licenses and certificates

edX Verified Certificate for Introduction to Web Accessibility
Mars 2024

🎓 Other Courses

React Native: The Big Picture, Udemy

Oktober 2023

Ember 4: The Big Picture by Steve Buchanan, Pluralsight

September 2023

React – The Complete Guide (incl Hooks, React Router, Redux), Udemy

Juni — Augusti 2022

The Complete 2022 Web Development Bootcamp, Udemy

Augusti 2021

Preparatory course in programming and computational thinking, KTH

2010 — 2010

Webbteknologier och databaser, Malmö Universitet

2009 — 2009
